

## **Stilla Technologies: Official Supplier of APHP Paris Hospitals**

Paris, 19/03/2018

Stilla Technologies has been awarded the public tender for digital PCR instrumentation by the APHP (Assistance Publique des Hôpitaux Paris). Stilla is proud to be the official supplier of all the dPCR equipments for the 39 hospitals included in this tender for the next 4 years.

### **About AP-HP:**

*AP-HP (Assistance Publique des Hôpitaux Paris) is a university-affiliated hospital institution which gathers 39 hospitals in Paris that welcome more than 10 million people each year. AP-HP has particularly the task of handling health crises in France as well as abroad, as it has been shown during the Ebola crisis in 2014-2015. To do so, both research teams and clinical teams have established multiple clinical research collaborations abroad. AP-HP researchers aim to continuously improve care quality and finding new treatments.*
